**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I support broadband competition. It is essential if end users are to be given internet access at competitive prices. Before Sonic came on the scene, ATT was the main provider and would throttle download speeds contrary to promised speeds. Comcast is also exercising monopoly power by raising prices after the initial sweetener to entice customers. We need more competition so that all people and not just rich people can have efficient and affordable internet access.
